

Calibration Lab Manager (Temperature & Pressure)

Location: Radcliffe (Near Bury) Manchester.

Starting Salary: Negotiable

The Company:

Thermosense Ltd specialise in the manufacture and supply of Temperature & Process Measurement products. Our core products include Thermocouple & RTD sensors, Pressure Gauges & Transducers and Process Instrumentation. We place a strong emphasis on offering the very best level of customer service and high quality products.

The Role:

To manage the test and calibration section for this company's range of Temperature and Pressure instrumentation. The objective is to obtain UKAS accreditation for the facility. Our ideal candidate will have a proven record of working to UKAS standards and ideally be familiar with the engineering principles behind Temperature and Pressure Instrumentation.

The permanent position offers an excellent opportunity for long term career progression and the role will suit someone who has experience of managing a calibration laboratory or similar.

The Candidate:

The candidate must have experience in Temperature Calibration to UKAS standard, be methodical and precise.

Application:

If you would like to apply for the position please send your CV by email to
